

HireMind AI - Setup & Restart Guide

Overview

Complete guide to start, stop, and restart HireMind services.

Backend Services

Run: `docker compose up -d db redis`

Backend API

Activate venv and run: `uvicorn app.main:app --reload --port 8000`

Frontend

Run: `npm run dev` and open `http://localhost:3000`

Health Check

Open `http://127.0.0.1:8000/health`

Swagger Docs

Open `http://127.0.0.1:8000/docs`

Judge0

Run: `docker compose -f docker-compose.judge0.yml up -d`

Shutdown

CTRL+C for frontend/backend, then `docker compose down`

Quick Start

1) `docker compose up -d db redis` 2) `uvicorn app.main:app --reload --port 8000` 3) `npm run dev`
